On behalf of mrm,
we would like to
thank all our existing
customers and
welcome our new
ones. As you can
see our product
range has grown
tremendously.

We pride ourselves on
providing excellent service
and commitment, with high
quality, robust products at
competitive prices. With over
12 years experience, we
design, manufacture and supply
products from our own factory
which enables us to offer a tailor-
made or customised service.

If you are interested in a
product or have a product
in mind that you require
manufacturing then please
contact us.

As all of our products are
manufactured in Great Britain
we are very proud to support
the "Made in Britain" campaign

MANCHESTER VALUE BIN

LITTER BINS & RECYCLING UNITS

The Value range of litter bins has been designed to provide an extremely durable litter bin at an extremely competitive price, without compromising quality, strength and durability.

The litter bins are manufactured from 2mm zintec steel and incorporate a heavy duty stainless steel full door hinge and a 3 part coating process to prolong service life. With capacities for the single starting at 120ltr, the value range is ideally suited for most locations. Available in black as standard with a tidy man, however most standard colours various finishes, transfers, plaques or laser cut profiles and lettering are also available. As are stubber plates and ashtrays. Please do not forget to ask about our extremely competitive installation and maintenance services.

TOWER LITTER BIN

LITTER BINS & RECYCLING UNITS

The Tower litter bin is front opening and has been designed and proven to withstand extreme vandalism.

The Tower Litter bin is ideally suited for play areas and parks in urban and rural areas. It is constructed from heavy section steel flat bar and steel plate, which is strengthened still further by being formed and then fully welded. The complete assembly is then galvanised and if required powder coated or painted to most RAL / BS colours. The 120ltr capacity galvanised liner is secured within the bin by using your own padlock. The Tower may be surface mounted or concreted in.

STANDARD FEATURES

Manufactured from steel.
1-off posting aperture (to maintain strength).
Galvanised and polyester powder coated or painted.
Galvanised liner 120ltr capacity.
Extensive colour range.
Surface mount or root fix (advise upon ordering).

OPTIONAL EXTRAS

Padlock.

SENTINEL LITTER BIN

LITTER BINS & RECYCLING UNITS

The Sentinel litter bin has again been designed and proven to withstand extreme vandalism, however it is unobtrusive when sited and has two apertures.

The Sentinel litter bin is suited for most environments and it's simple design means it requires little if any maintenance. It is constructed entirely from steel, the complete assembly is galvanised and if required powder coated or painted to most RAL / BS colours. The 100ltr capacity galvanised liner is secured within the bin by a latch opened by using our standard T-key.

STANDARD FEATURES

Manufactured from steel.
2-off posting apertures (to maintain strength).
Galvanised and polyester powder coated or painted.
Galvanised liner 100ltr capacity.
Extensive colour range.
Surface mount or root fix (advise upon ordering).

METAL POST MOUNTED BIN

LITTER BINS & RECYCLING UNITS

The Postie litter bin has been designed for post mounting and provides both strength and durability, coupled with a pleasing appearance and a capacity of 48ltrs.

It is manufactured from zintec and is polyester powder coated (our standard is black) to most BS / RAL colours, gold banding and a tidy man transfer complements its final appearance. It is mounted using two standard steel bands/clips.

STANDARD FEATURES

Manufactured from zintec.
Vinyl banding and tidy man symbol.
48ltr capacity.
Polyester powder coated.
Colour black as standard.

OPTIONAL EXTRAS

Personalisation.
Extensive colour range.

DOGGIE BIN

LITTER BINS & RECYCLING UNITS

THE EURO DOGGIE is a post mounting bin with a 40ltr capacity, the polyethylene body is covered by a durable vandal/fire resistant powder coated steel lid and is supplied with a fully galvanised steel liner.

Due to its design the Doggie can be bolted or banded to most pre-existing posts.

STANDARD FEATURES

Manufactured from tough polyethylene.
Steel and polyester powder coated lid.
Zinc coated liner.
Full range of colours and finishes.
Decorative banding.
Screen printed "doggie" symbol.
Replacement parts - there is no need to purchase a complete replacement bin.

OPTIONAL EXTRAS

Personalisation.
Galvanised extended post for concrete foundations.

Available in recycled materials

THE EURO HOODY

LITTER BINS & RECYCLING UNITS

Available in recycled materials

Probably the simplest keyless locking free standing litter bin on the market, because of its unique simplex keyless locking system.

Yet it is frustratingly difficult to open unless you have been shown. It has proven to be one of the most adaptable and robust plastic litter bins on the market, surviving even the most arduous of urban environments. Manufactured in our own factory using high grade polyethylene and supplied with galvanised steel liners (110ltr capacity) we can ensure that you get a quality product at a competitive price. They are available in a large range of colours and finishes and typically include banding and a screen printed tidy man (screen printed logos are extremely resistant to vandalism).

STANDARD FEATURES

Manufactured from tough polyethylene.
Galvanised steel liners.
Colour black as standard.
Gold banding and screen printed tidy man as standard.

OPTIONAL EXTRAS

Stainless steel stubber plate.
Personalised polycarbonate plaques and vinyl transfers and lettering.
Concrete ballast blocks.
Galvanised ground anchor.
Full range of colours and finishes including mottled/granite effect.
Ground fixings.
Installation service.

EURO RANGE

LITTER BINS & RECYCLING UNITS

The Euro plastic open top litter bins have capacities of 40, 100 and 150ltrs, they are manufactured from tough polyethylene and are supplied with galvanised steel liners.

The Euro 40

The Euro 100

The Euro 150

STANDARD FEATURES

Manufactured from tough polyethylene.
Galvanised steel liners.
Full range of colours and finishes.
Gold banding and screen printed tidy man as standard.

OPTIONAL EXTRAS

Personalised polycarbonate plaques and vinyl transfers and lettering.
Galvanised ground anchor.
Ground fixings.
Concrete ballast.
Installation service.

The Euro range are available in a large range of colours and finishes and typically include banding and a screen printed tidy man (screen printed logos are extremely resistant to vandalism).

The Euro 40 has a 40ltr capacity and may be post, fence or wall mounted.

The Euro 100 has a 100ltr capacity and is free standing

The Euro 150 has a 150ltr capacity and is also free standing.

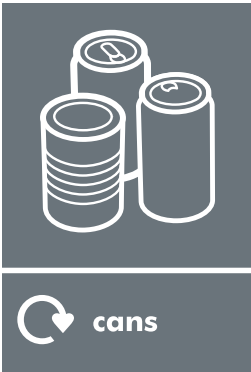

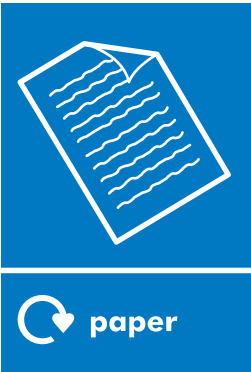

Available in recycled materials

These litter bins are manufactured from zintec steel and incorporate stainless steel full door hinges and a 3 part coating process to prolong service life.

Based on the Manchester Standard steel litter bin to enable all components to be fully interchangeable. With capacities for the single starting at 120ltr, double 240ltr and 360ltr for the triple unit or 140ltr and 200ltr for the wheeled bin units, the Manchester recycling range is ideally suited for most locations. Available in most standard colours and various finishes with transfers, plaques or laser cut profiles and lettering.

STANDARD FEATURES	OPTIONAL EXTRAS
<ul style="list-style-type: none">Manufactured from 2mm zintec.Stainless Steel full door hinges.Flat or apexed lids.4, 6, or 8 posting apertures with tapered guide chutes.Gold band and tidy man / recycle logos.Galvanised liners.Polyester powder coated (3 part coating process).Extensive colour range (black semi gloss is our standard).Slam lock (key supplied).Ground fixings included (anchor bolts).	<ul style="list-style-type: none">Stainless steel ashtray.Stainless steel stubber plate.Metal banding.Laser cut lettering, logos, metal banding.Personalised polycarbonate plaques and vinyl transfers and lettering.Varying capacities / designs including liners.Graffiti resistant, anti fly poster or coastal finishes.Installation service and maintenance service.

WHEELED BIN LOCKING FRAMES

These locking frames are designed to accept 120, 140, 240 & 360ltr wheelie bins.

The locking frames are manufactured from substantial steel section and then fully galvanised, the base frames incorporate paving slabs and a wheel guiding system for the larger bins. There is a lock and release lever on the right hand side with a slam lock, which also accepts a standard padlock. Lid restraints allowing various openings are available as are label panels with PVC Signage. The frames are a proven product especially in communal dwellings where it is impractical for tenants to have individual bins. They transform areas into neat, safe and secure sites and also combat anti-social behaviour problems associated with the moving and tipping of bins.

STANDARD FEATURES

Manufactured from galvanised steel.
Accepts both 120 to 360ltr units.
Integral display frame.
Modular design.
Free standing.
Slam locking.
Ballasted.

OPTIONAL EXTRAS

Extensive waste / recycling.
identification / signage.
Ground fixings.
Installation service.

BULK BIN LOCKING FRAMES

These security cordons are designed to accept most sizes of wheelie and bulk bins and transform litter / recycling sites.

They are manufactured from steel section and then fully galvanised and may be powder coated or painted to your specification, they have integral signage panels for PVC Signage and are secured with standard padlocks.

STANDARD FEATURES

Manufactured from galvanised steel.
Designs for most bin sizes.
Integral display frame / signage.
Modular design.
Free standing.

OPTIONAL EXTRAS

Extensive waste / recycling.
identification signage.
Ground fixings.
Installation service.

We currently manufacture four sizes of grit bin; 30,200 and 350Litre at unbeatable prices starting from just £50.00 all manufactured from high grade MD Polyethylene, which is extremely tough/durable.

MRM007

MRM005 (200ltr)
MRM006 (350ltr)

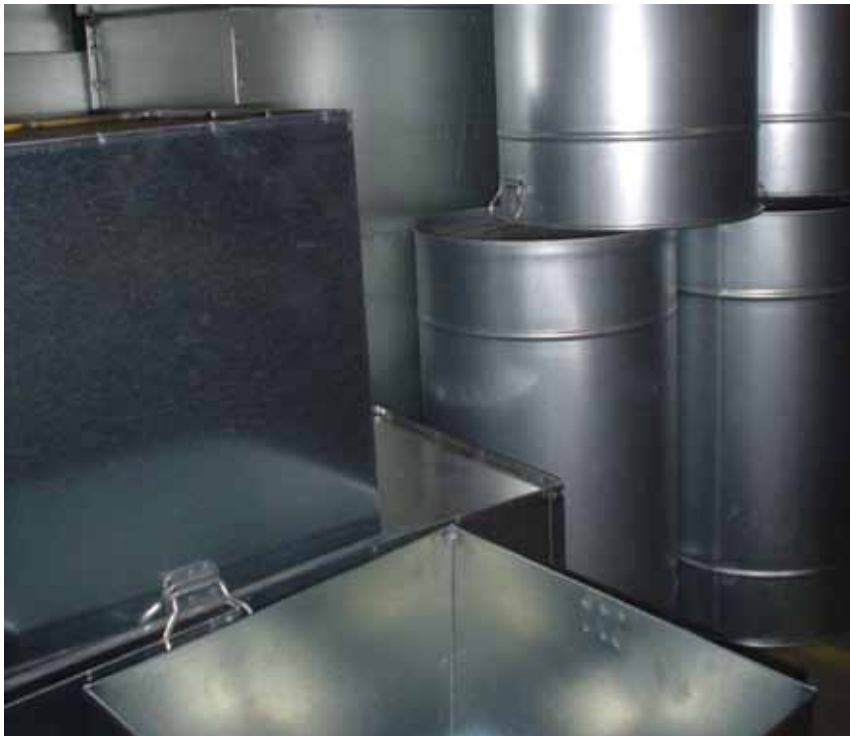

The MRM0007 30litre Mini bin is ideal for commercial and domestic use for gritting access points, steps and driveways with ease, it can be supplied with 25kg of rock salt and a plastic scoop. It's fitted with a barrel lock and supplied with 2 keys and when not used for salt it can be used to store garden tools, logs , barbecue coals etc and because the lid has a moulded tread plate it can be used as a step. Supplied in black as standard other colours are available at extra cost.

The MRM0005 200Litre and MRM0006 350Litre Grit bins are ideal for roadside storage, car parks and company premises. Supplied in yellow as standard with a "GRIT" logo moulded into the lid which cannot be scratched or peeled off, other colours are also available. They are stackable to reduce storage requirements and can be supplied with two hasp and staples per bin for security if required. Shovels and scoops can also be supplied from as little as £2.50

REPLACEMENT LINERS

LITTER BINS & RECYCLING UNITS

We can offer a vast range of liner designs i.e. Round, square, rectangular etc of almost any dimension to replace damaged liners or as stand alone litter bins.

Please do not hesitate to ask us for a quotation. All our liners are manufactured from galvanised steel and include two lifting handles as standard.

STANDARD FEATURES

Manufactured from galvanised steel with handles.
Extensive range.

WIRE BASKETS

LITTER BINS & RECYCLING UNITS

We can offer a wide range of basket designs from round, semi circular, rectangular, square, stackable etc, a few examples are displayed.

Baskets are an affordable alternative to litter bins and have the advantage of being easily sited either temporary for festivals or permanently in parks, cemeteries and crematoriums etc and are much better suited for bulky items such as flowers. Manufactured from steel wire generally with feet to allow better drainage, two lifting handles and galvanised for a long service life.

STANDARD FEATURES

Manufactured from steel wire
Galvanised
Extensive range

Personalisation

Cast bronze commemorative plaque

The Royal cast iron framed seat is supplied with hardwood, steel or recycled plastic slats.

The cast iron frame is supplied painted black as standard, although most RAL / BS colours are available. The hardwood design is supplied with a central steel brace, the hardwood is treated and then fully varnished. The seat is supplied fully assembled.

Recycled plastic version with skateboard deterrent

Installation service.

We manufacture a range of picnic tables manufactured from soft wood, hardwood, steel and recycled plastic.

WOODEN

WOODEN

RECYCLED PLASTIC

METAL

The wooden tables can be supplied standard or heavy duty sections.

The steel tables are extremely resistant to vandalism, one of our most popular designs is the disabled version. They are galvanised and powder coated or painted to most RAL / BS colours.

The recycled plastic units are manufactured entirely from 100% recycled plastic materials of heavy section to ensure exceptional strength and stiffness. They are weather resistant and will not corrode or splinter and again are vandal / graffiti resistant. We offer a number of designs to suit all locations and budgets.

STANDARD FEATURES

Manufactured from soft wood, hardwood, steel and recycled plastic.
Various designs / lengths available.
Powder coated or painted.
Extensive colour range.
Supplied fully assembled.
Disabled access.
All the designs may be surfaced mounted or ground fixed.

BROOKDALE PICNIC SET

Part of our contemporary Brookdale range complimenting our seats and benches. The picnic table and seat is supplied either surface mount or root fixed. Fully assembled and ready to be installed.

Can be supplied self colour (anti corrosion galvanised) or powder coated/painted to most RAL / BS colours

STANDARD FEATURES

Manufactured from steel.
Anti corrosion galvanised.
Lengths up to 1800mm.
Root fixed or surface mount designs.

OPTIONAL EXTRAS

Powder coated or painted.
Installation service available.

BROOKDALE SEATING

SEATING

The contemporary seating / table range have been designed to have a modern feel and are made from extremely tough steel circular tube and steelwork which is then fully galvanised.

The seats are supplied with or without arm rests and all designs can be supplied root fixed or surface mounted. Supplied self colour as standard, or may be painted / powder coated to most RAL / BS colours. These seats are supplied fully assembled and ready to install.

STANDARD FEATURES	OPTIONAL EXTRAS

SPARES

We offer spares for all our products to enable our customers to fully service them, these may be replacement keys, locks or larger components such as liners, doors, lids or bodies. Simply tell us the model and spare you require and we will provide you with a quotation. This also applies to other manufacturers products, so if you require replacements for these, such as liners, keys and locks please ask!

The headings are for convenience purposes and not interpretation.

General

"Seller or supplier" as used herein means MRM Street Furniture Ltd.

"Agreement" means an agreement between the Seller and the Buyer for the sale by the Seller to the Buyer of the products of any description.

The word "product" used herein shall mean a product, products, goods or any mixture or combination agreed in any Agreement, to be supplied to the Buyer.

All orders are accepted on the understanding that these Conditions of Sale apply. No variation of these Conditions of Sale shall be binding on the Seller unless agreed in writing and signed by a Director of the Seller.

All matters concerning an agreement or dispute under these Conditions of Sale shall be decided according to the Laws of England.

Products

All products are manufactured to order and designs and specifications may vary from that shown, due to continued development. The buyer is responsible in ensuring the products offered are suitable for purpose and the consequences arising from any work undertaken by the supplier at the buyer's request.

Colours and finishes may vary from the Illustrations, due to limitations in printing.

Placing or Cancelling Orders

Orders are accepted in writing by email, fax or post, and must state clearly goods required and costings.

Cancellations of orders are to be in writing by email, fax or post. The supplier will not accept cancellation of orders unless paid for in full. Faulty goods will be accepted at the supplier's discretion, if returned undamaged within three days of delivery, it will be repaired, replaced or credited to the purchase price. The seller shall be under no further liability to the buyer.

Price Variation

Any prices quoted are in pound sterling and exclude VAT and carriage. In any agreement the Seller reserves the right to change prices prior to orders being placed and without prior notice.

Terms of payment

Credit accounts are automatically offered to Local Government Authorities and Bodies. Unless otherwise agreed in writing, settlement is strictly 28 days; the Seller reserves the right to charge interest under the Late Payments of Commercial Debts (interest) Act 1998 at the rate that is relevant, on any overdue payments. Prior notification will be given of such action. This may also result in credit facilities being withdrawn.

Payments received for Pro-Forma invoices require payment clearance before commencement of production or dispatch. All invoice queries must be addressed in writing within seven days of invoice date.

Delivery or Shipment

The delivery dates given in any Agreement are given in good faith but are estimates only and no liability whatsoever can be accepted by the Seller for delays in delivery howsoever caused and the Buyer shall not be entitled to refuse to

accept the product by reason of any delay in delivery unless specifically agreed with the seller. The Seller reserves the right to make deliveries in instalments.

All goods must be unpacked and checked upon receipt.

Damaged or shortfall must be noted on the signed delivery note at the time of delivery and the seller must be notified in writing within three days from delivery date.

Seller's Warranty

The Seller warrants that the product delivered to the Buyer will comply with the specification or description given in any Agreement.

Faulty goods will be accepted at the supplier's discretion, if returned undamaged within three days of delivery. It will be repaired, replaced or credited to the purchase price. The seller shall be under no further liability to the buyer.

Passing of Property and Risk

Title in the product shall pass, on payment being received by the Seller, in full into his bank account, for the whole of any delivery. Risk in the product passes to the Buyer on delivery. Delivery occurs:-

In the case of product collected from the seller, when the goods are loaded on to the collecting vehicle or when the product has passed the delivery line of the Seller's storage. In the case of product delivered to an address in the United Kingdom, where the goods have been removed from the transporting vehicle at such address.

Force Majeure

The Seller shall in no circumstance be liable for any loss caused by or resulting from inability to deliver, or delay in delivery arising from any circumstance beyond its control including in particular but without limiting the generality of the foregoing, force majeure, Act of God or the Queen's enemies, fire, flood, ice, frost, withdrawal of labour, breakdown of machinery, loss or detention of vessels or other means of transport, inability to arrange transport by the Seller's normal methods, delay in loading or discharging goods, inability to obtain supplies of goods or raw materials, or restrictions on the use of or supply of fuel or power. In the event inability to deliver or delay in delivery by reason of any of the above mentioned causes, the Seller may suspend delivery, and at its option the Seller may (whether or not it has already suspended deliveries) by notice in writing to the Buyer cancel the Agreement in whole or as to any unfulfilled part. Or the supplier may extend the delivery time until such causes have ceased, in which case the buyer shall be responsible for all storage and other costs incurred by the seller in connection therewith. Any such termination shall no prejudice the rights and obligations of any party, which have already arisen or any part of the contract completed.

Health and Safety

All goods are sold on the basis that the Buyer will take notice of the care and handling recommendations as supplied by the Seller or manufacturer of the goods, or failing such recommendations, follow the highest standards of care adopted by the trade in respect of such goods. If the Buyer is not already in possession of literature or information in connection with the safe use of the product at work then contact should be made with the Seller.
